SECTION XVI

In the area of this Authority, china clay and stone still provide the bulk of the work and trade. The gradual trend towards Par harbour, noted over the past few years, continues, except for vessels of deep draught. Fowey harbour badly needs increased and improved jetty and loading facilities, but unfortunately these are in charge of British Railways and, consequently, the outlook appears poor.

I am Sir,

Your obedient servant,

In the area of this authority, china clay and stone still provide the bulk of the work and trade. The gradual trend towards Par harbour, noted over the past few years, continues, except for vessels of deep draught.
